Creating a Social life for young people in boring communities

Workshop

Today we are going to talk about how to create exciting creative opportunities for young people living in rural communities.

We plan on sharing today the use of our youth voices to challenge the perspectives of people and how they see their place.

Who is OUTSIDE ?

OUTSIDE is an exciting new community arts programme created by and for the people of the Staffordshire Moorlands.

Local residents, working with professional artists, are co-curating arts and cultural activities and events celebrating life in the rural landscapes, villages and market towns of the Moorlands.

Creative Activity

Your Task: We would like each table to design an event for Young People aged between 14-18, living in Rural Communities.

- There is no funding limit, which means you can go wild
- Think about what you would like to call the event and what will the young people gain from the experience
- What we are looking for is for you to dream big, be meaningful and exciting
- You have 20 minutes to get creative
- Please use the resources on your tables
- We will then spend 10 minutes to hear your brilliant ideas

Feedback

Share your ideas & tell
us about your event

Q&A

Do you have any questions?
